PROFESSIONAL SUMMARY

Recent Computer Science graduate with practical experience in software development, quality assurance, and software testing gained through academic projects and internship work. Skilled in developing, testing, debugging, and maintaining applications, as well as creating test cases, identifying defects, and validating system functionality. Knowledgeable in SDLC, STLC, API testing, Selenium, Agile methodologies, and software engineering best practices. Demonstrates strong analytical thinking, attention to detail, and problem-solving abilities with a focus on delivering reliable, user-focused, and high-quality software solutions. Eager to contribute to both Software Development and Quality Assurance teams while advancing technical expertise in application development, automation testing, and software quality processes.

EXPERIENCE

Sorsogon City, Philippines
June 2025 – August 2025

Department of Information and Communications Technology (DICT) On-the-Job Training (OJT) Intern

- *Assisted in system testing, validation, and troubleshooting of government digital platforms and ICT systems.*
- *Performed software verification and functionality checks to ensure systems operated according to requirements.*
- *Documented technical issues, support procedures, and system processes to improve operational efficiency.*
- *Supported hardware diagnostics, software installation, operating system deployment, and device configuration.*
- *Assisted in network setup, connectivity testing, and Starlink internet deployment during government events.*
- *Participated in cybersecurity awareness activities and digital transformation initiatives.*
- *Collaborated with Local Government Units (LGUs) regarding digital services implementation and technical support.*
- *Maintained accurate technical records, inventory documentation, and administrative reports.*
- *Assisted in identifying and resolving software and hardware issues to improve system reliability and user experience.*

Rosario, Cavite
June 2023 – September 2023

Jollibee EPZA Kitchen Crew / Grill Station Staff

- *Maintained operational quality standards and ensured compliance with company procedures.*
- *Demonstrated attention to detail while preparing food products in a fast-paced environment.*
- *Assisted in inventory management and stock organization.*
- *Worked collaboratively with team members to maintain efficiency during peak operating hours.*
- *Developed strong multitasking, communication, and time management skills.*

- *Demonstrated teamwork, multitasking, customer support, and time management during peak hours.*

QUALITY ASSURANCE PROJECTS

- *Manual Testing Practice Project*
- *Created and executed multiple test cases to validate application functionality and usability.*
- *Identified, documented, and reported software defects using structured bug reports.*
- *Performed functional testing, regression testing, and user acceptance testing.*
- *Verified system requirements and expected outcomes through detailed testing procedures.*
- *Produced testing documentation including test scenarios, test cases, and defect reports.*

PROJECTS

Course Recommendation System Using Explainable AI (Thesis)

Technologies: React, Next.js, Node.js, MySQL, FastAPI, Machine Learning

- *Led the development of an AI-powered recommendation system using K-Means Clustering and Content-Based Filtering.*
- *Conducted system testing, debugging, and validation to ensure recommendation accuracy and system reliability.*
- *Designed and executed test scenarios to identify defects and improve application performance.*
- *Implemented explainable AI features to increase recommendation transparency and user trust.*
- *Developed frontend and backend functionalities while maintaining database integration.*
- *Produced technical documentation, testing reports, and system specifications.*
- *Improved recommendation effectiveness through iterative testing and user feedback analysis.*

TruthFinder

Technologies: React, Node.js, Database Management

- *Developed a web-based platform focused on information verification and content validation workflows.*
- *Performed functionality testing and debugging to ensure system reliability.*
- *Implemented responsive user interface components and modern frontend architecture.*
- *Assisted in documentation and quality assurance activities throughout development.*

Hotel Management Application

Technologies: React, Node.js, MySQL

- *Built a web-based hotel management system with CRUD functionality.*
- *Developed modules for bookings, customer records, and management operations.*
- *Conducted system testing and debugging to improve application stability.*
- *Created and validated database transactions and business processes.*

EDUCATION

Sorsogon State University – Bulan Campus
August 2022 – June 2026

Bachelor of Science in Computer Science

Relevant Coursework

- *Programming Fundamentals*
- *Data Structures and Algorithms*
- *Object-Oriented Programming*
- *Database Management Systems*
- *Web Development*
- *Software Engineering*
- *Networking Fundamentals*
- *Human-Computer Interaction*

- *System Analysis and Design*

Leadership & Organizations

- **Supreme Student Organization (SSO)** – BSCS Representative
- **Computing Society (ComSoc)** – Media Information Officer

Senior High School

*Prieto Diaz, Sorsogon
Manlabong National High School
2019 – 2021*

General Academic Strand (GAS)

Honors

- *Academic Excellence Award – With High Honors*

CERTIFICATIONS

- *DICT Internship Program – Apprenticeship*
- *Cisco Computer Hardware Basic Course*
- *Cisco Operating System Basic Course*
- *Cisco Endpoint Security Course*

TECHNICAL SKILLS

Quality Assurance & Testing

- *Manual Testing*
- *Functional Testing*
- *Regression Testing*
- *User Acceptance Testing (UAT)*
- *Test Case Development*
- *Test Scenario Creation*
- *Bug Tracking & Reporting*
- *Defect Documentation*
- *Software Quality Assurance (QA)*
- *SDLC (Software Development Life Cycle)*
- *STLC (Software Testing Life Cycle)*

Automation Testing

- *Selenium (Basic)*
- *Automation Testing Concepts*

API Testing

- *REST API Testing*
- *Postman*

Frontend Development

- *HTML5*
- *CSS3*
- *JavaScript*
- *React.js*
- *Next.js*

- *Tailwind CSS*

Backend Development

- *Node.js*
- *TypeScript*
- *Python*
- *FastAPI*

Database Management

- *MySQL*
- *MongoDB*

Tools & Technologies

- *Git*
- *GitHub*
- *Visual Studio Code*
- *REST APIs*

Soft Skills

- *Analytical Thinking*
- *Problem Solving*
- *Communication*
- *Team Collaboration*
- *Time Management*
- *Adaptability*

Languages

- *Filipino*
- *English*
